Section Title Slide

Drawing Attention with a Single Line of Text

Sometimes a Single Line is All We Need

An Abbreviated List of Active Learning Activities

- ▶ Jigsaw method
- ▶ Three-step interview
- ▶ Round table
- ▶ Mind mapping
- ▶ Role play
- ▶ Case study

Universal Design for Learning (UDL)

Principles of UDL

- ▶ Design Multiple Means of Engagement
- ▶ Design Multiple Means of Representation
- ▶ Design Multiple Means of Action and Expression

GOAL: *“the capacity [for learners] to actively participate in making choices in service of learning goals.”* (CAST 2024)

The Framework’s Ultimate Goal is Learner Agency

The Engaged Learner Is...

“

One who is invested in their scholarship on a psychological level and makes the efforts to meet or exceed at the "knowledge, skills or crafts that [their] academic work is intended to promote."

”

Regarding Instructional Designers in Higher Education

In higher education, instructional designers are often seen as "change agents" because they help to facilitate behavioral changes and improve performance at their institutions. Due to their unique position of influence among higher education leaders and faculty and their use of systems thinking, instructional designers can help bridge institutional priorities and the specific needs of various stakeholders.

Higher Orders of Bloom's Taxonomy

▶ Analyzing

- ▶ Breaking material into constituent parts and investigating relationships

▶ Evaluating

- ▶ Making judgements based upon standards and criteria

▶ Creating

- ▶ Putting elements together to construct a novel and coherent whole

Lookback: Public Health Threat Responses by the CDC (U.S.)

A selection from the Centers for Disease Control and Prevention (CDC) Epidemic Intelligence Service records.

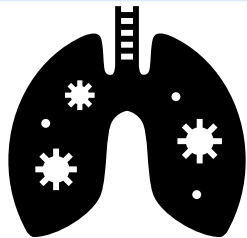

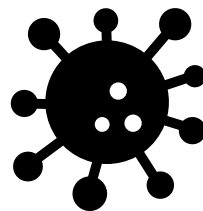

1955: Polio
eradication
initiation

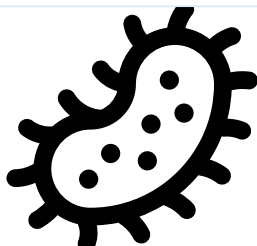

1981:
HIV/AIDS first
reported

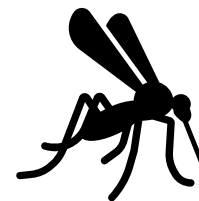

2003: SARS

1976:
Legionnaires'
Disease

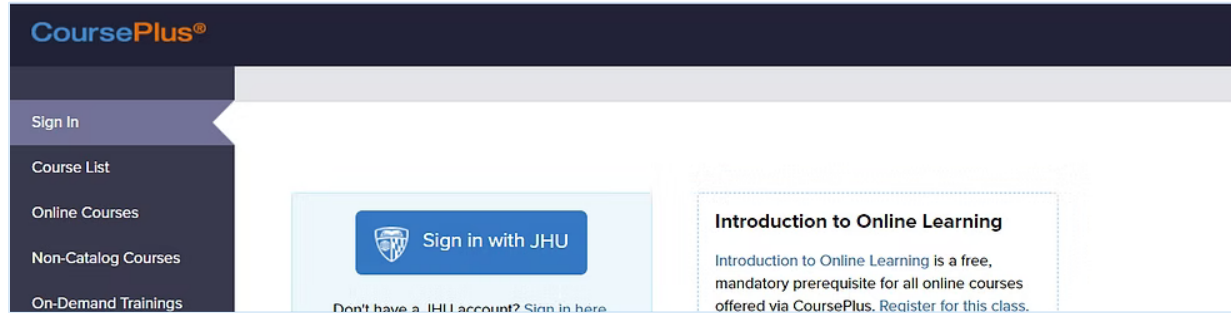

1993: E. coli

2016: Zika

CTL Builds and Maintains CoursePlus

A Proprietary Learning Management System Meeting the Unique Needs of BSPH Academics

CTL Offers Professional Recording

Services Overview

The Center for Teaching and Learning team is dedicated to applying evidence-based methods and professionally produced tools to help instructors create a rich and inspiring learning environment.

Our instructional designers, web developers, technical writers, medical illustrators, and audio and video specialists collaborate with subject-matter experts to produce state-of-the-art academic and training courses as well as open educational resources on health-related topics. They equip our faculty with the latest tools and best practices for student engagement, accessibility, learning assessment, and course management—for both online and on-campus learning.
